

Why we love...

Flatweave & Cotton rugs

Flatweave rugs are **slimline** and have no pile, meaning they are **easy to care for**.

To help keep your rug *looking great*, follow our top care tips:

Did you know?

Flatweave means thin, but that doesn't mean you're getting any less rug! Flatweaves are perfect for busy homes and are designed to withstand daily wear and tear.

Rug & Roll

Our rugs are rolled to ensure they arrive safe and sound from our hands to your home. To flatten your new rug, reverse roll and leave in a warm room for 24 hours. This will help reduce any wrinkles from packing.

Snip Snip

If you find the odd loose thread, simply snip carefully with scissors – never pull.

Safety

At Flair Rugs we always recommend an anti-slip is used to prevent your rug from slipping and to protect your floors.

Rug Care

Dust and dirt are easy to clean from a flatweave rug, simply shake it out! Then vacuum with the nozzle attachment.

Spills

Don't worry, spills happen! Spot clean as needed with a dampened white cloth only. If the stain remains use a mild detergent to blot the area or gently rub until the stain lifts.

Long term care

To keep your rug looking good as new, rotate every 3 months to ensure even fading and wear.

Rugs that bring everything, and everyone, together
