Dressing Table

Assembly & Care Instructions

Dear Customer

- Please keep these instructions for future reference.
- This item is intended for indoor use only - unless otherwise specified. Avoid exposure to humid conditions.
- Check all parts are intact and undamaged. Any issues please contact our customer service team.
- Restrain children from climbing or playing on or around the product. Always consider where products are positioned to ensure children cannot get access to long cords or windows.
- Some products will be supplied with anti - tip kits which should always be used to secure the product to the wall and prevent tipping.
- Keep all plastic wrapping materials away from babies and children to avoid danger of suffocation.
- Ensure that all packaging is disposed of carefully and responsibly. Please recycle where possible.

WARNING! Tipping hazard

Unanchored products can tip over which can lead to serious or fatal crushing injuries. We therefore recommend anchoring this product to the wall using the enclosed anti-tip kit.

The anti-tip kit has been provided for your safety.

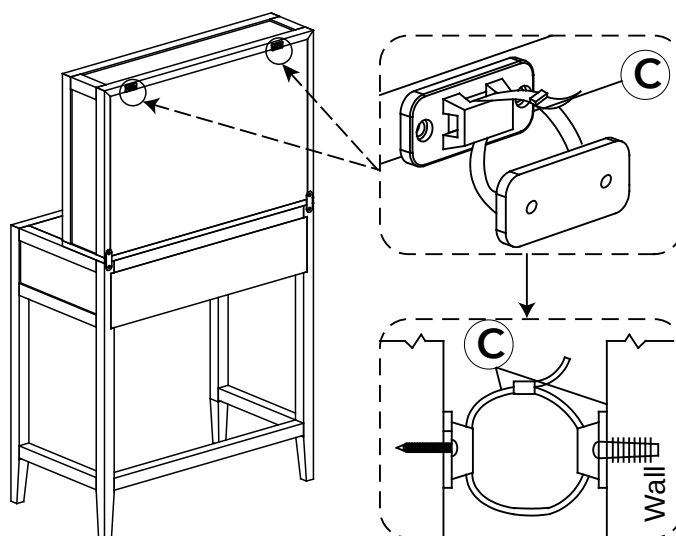

IMPORTANT - Keep these instructions for future reference

- This product is supplied with an anti-tip kit which must be fitted to prevent tipping. This has been provided for your safety.
- Never leave a child unattended around the product.
- Never allow children to climb, hang or pull at the product.
- If in doubt, please consult a qualified tradesperson to properly fit the anti-tip kit.
- Wall fixings are not provided with the anti-tip kit as different wall types require different screws and wall plugs. See wall fixing guide within this document for guidance.
- Make sure the screws and wall plugs used are suitable for your wall type and that they can support the weight of the product. Consult a qualified tradesperson if unsure.
- Before drilling into walls, always check there are no hidden wires or pipes behind.
- We recommend 2 people install heavy products.

Fixing the anti-tip kit

Plastic Cable Tie

- Position the product where desired. Looking at the plastic bracket on the back of the product, mark appropriate positions for the plastic wall brackets to be fixed, bearing in mind the length of the cable ties. When happy, screw the plastic bracket to the wall using appropriate wall screws and plugs for your wall type.
- Attach the cable tie through the product bracket and wall bracket. Ensure the plastic tie is securely fastened and the product is held in place. Do not continue to use the product if the cable tie does not secure properly.
- The product will now be secured to the wall to prevent tipping.

If you are unsure of the below guidance, consult a qualified tradesperson for advice or help.

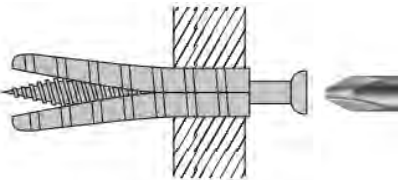

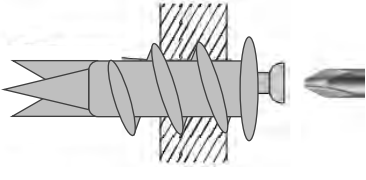

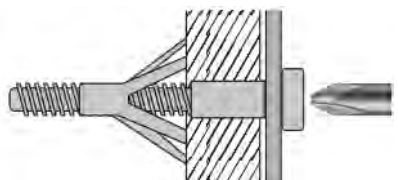

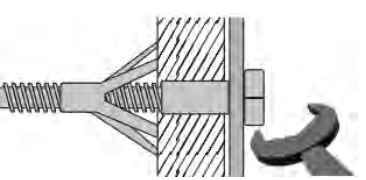

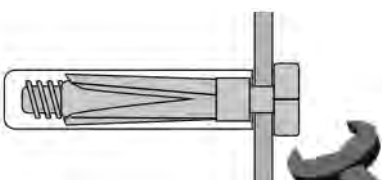

- Wall fixings are not provided with this product as different wall types require different screws and wall plugs. See table below as a guide only.
- Always use a wall plug, as screws alone will not be secure into walls.
- As a general rule, always use a larger screw and wall plug if you are not sure.
- When drilling into walls always check there are no hidden wires or pipes.
- Make sure that the screws and wall plugs are suitable for supporting the weight of the product.
- Ensure you use the recommended drill bit to match the required hole size for the wall plug. Wall plugs must fit tightly into the drilled hole.
- Ensure you drill the hole horizontally, do not force the drill or enlarge the hole.
- Take extra care when drilling high walls.
- Ensure the plug is fitted below the ceramic tile to avoid splitting or cracking

Care and Maintenance.

- Regularly check the fixings to ensure the wall plug or screws have not become loose. Tighten or stop using the product if they have.

Wall plug types

You can use one of the following types of wall plug if your walls are made of brick, breeze block, concrete, stone, wood or plastic board.

General Purpose	Plasterboard	Hammer
		
For light loads only. Options available for most wall types.	For light loads only. Attach into plasterboard.	For light loads only. For solid walls covered with plasterboard. Allows the fixing to be attached into brick behind.
Cavity - Light load	Cavity - Heavy load	Shield Anchor
		
Light load cavity wall plug for use into plasterboard or hollow wooden doors	Heavy load cavity wall plug for use into plasterboard or hollow wooden doors.	For heavier loads into masonry, brickwork or concrete.

- Uneven floors could give the impression that doors are out of alignment or that the furniture is wobbly. Be aware of this and compensate, if necessary, by adjusting the hinges or packing a corner to level the item. Please refer to the assembly instructions and adjust accordingly.
- If your furniture becomes stained, scratched, chipped or suffers other damage, we recommend professional help is sought to restore it. Please contact our customer services line for recommended agents.
- **DO** move items such as ornaments or coasters around periodically to allow the colour to mellow evenly.
- **DO** use mats and coasters to protect the surface from heat, liquids, or items that may cause scratches.
- **DO** ensure plastic or felt feet protectors are securely fitted into place on the feet and legs to avoid scratches.
- **DO** check fittings and fixings from time-to-time and tighten when necessary. Stop using the product if still unstable after all screws and bolts are tightened.
- **DO NOT** drag your furniture when moving it as this can damage joints. Always lift furniture into place

Specific material care.

Timber Care

- Timber is a natural material and each piece is individual.
- Colour may mellow over time and new items can vary in shade from items that you have purchased previously.
- **DO** only clean using a damp cloth and mild detergent. Aim to dust weekly with a soft, lint-free cloth or duster to prevent any build up of dirt.
- **DO** ensure the polish you are using is correct for your product and finish.
- **DO** avoid getting furniture wet when mopping floors. Always move out of the way when possible.
- **DO** patch test polishes or cleaning products on a small discreet area before applying across the whole unit.
- **DO** remove any spills immediately to avoid staining.
- **DO NOT** place directly in front of heat sources such as radiators or fires as timber can be affected by temperature and humidity which may cause cracking and warping.
- **DO NOT** place timber product in direct sunlight, as this will cause the colour to change quickly.
- **DO NOT** use bleach or abrasive cleaners.
- **DO NOT** use abrasive polish or silicon-based polishes as these can affect the finish over time.

Glass & Mirror Care

- Mirrors are a potential fire hazard. Keep out of direct sunlight.
- Handle with care.
- Always supervise young children around glass products.
- If the glass is chipped or broken, stop using the product.
- It is not recommended that glass or mirrored items to be positioned over heat sources such as radiators.
- **DO** clean your item, using a soft cloth slightly dampened with water and wipe clean. Then buff with a dry clean cloth. Use washing up liquid if necessary.
- **DO** only use fixings provided with the product.
- **DO** stop using the product if the glass is chipped or broken.
- **DO NOT** place very hot or very cold items directly on glass surfaces. Adequate table mats can be used to prevent such items coming into direct contact with the furniture.
- **DO NOT** sit or stand on glass surfaces.
- **DO NOT** use glass as a chopping board.
- **DO NOT** strike the glass with hard or pointed items or use the glass as a chopping surface.
- **DO NOT** use abrasives cleaning agents, as these may scratch the glass.
- **DO NOT** install this product in a damp environment such as a bathroom or outside, unless the product specifies otherwise, as this may cause the product to warp and become damaged.
