MAINTENANCE AND CARE GUIDE

ALBANY DOUBLE/KING BED

Maintenance:

- Hardware may loosen over time. Periodically check to make sure all connections are tight. Re-tighten if necessary.
- To move your new bed, we recommend lifting it where possible, as dragging or pushing it could cause damage to the legs or flooring.
- Please note depending on the lighting, positioning and surroundings of your room, the shade of the colour can sometimes appear slightly different.
- Metal tends to be more resilient to everyday wear and tear. We recommend to gently dust your metal furniture and keep it dry to maintain its look.

Care and Cleaning:

- Dust often using a clean, soft, dry and lint-free cloth.
- Spot clean occasionally with a damp white cloth.
- A soft brush or the brush attachment of a vacuum cleaner can also be used to clean dust.
- We do not recommend the use of chemical cleansers, abrasives or furniture polish on our lacquered finish.
