The Dreamer Cot Bed

IMPORTANT! RETAIN FOR FUTURE REFERENCE. READ CAREFULLY

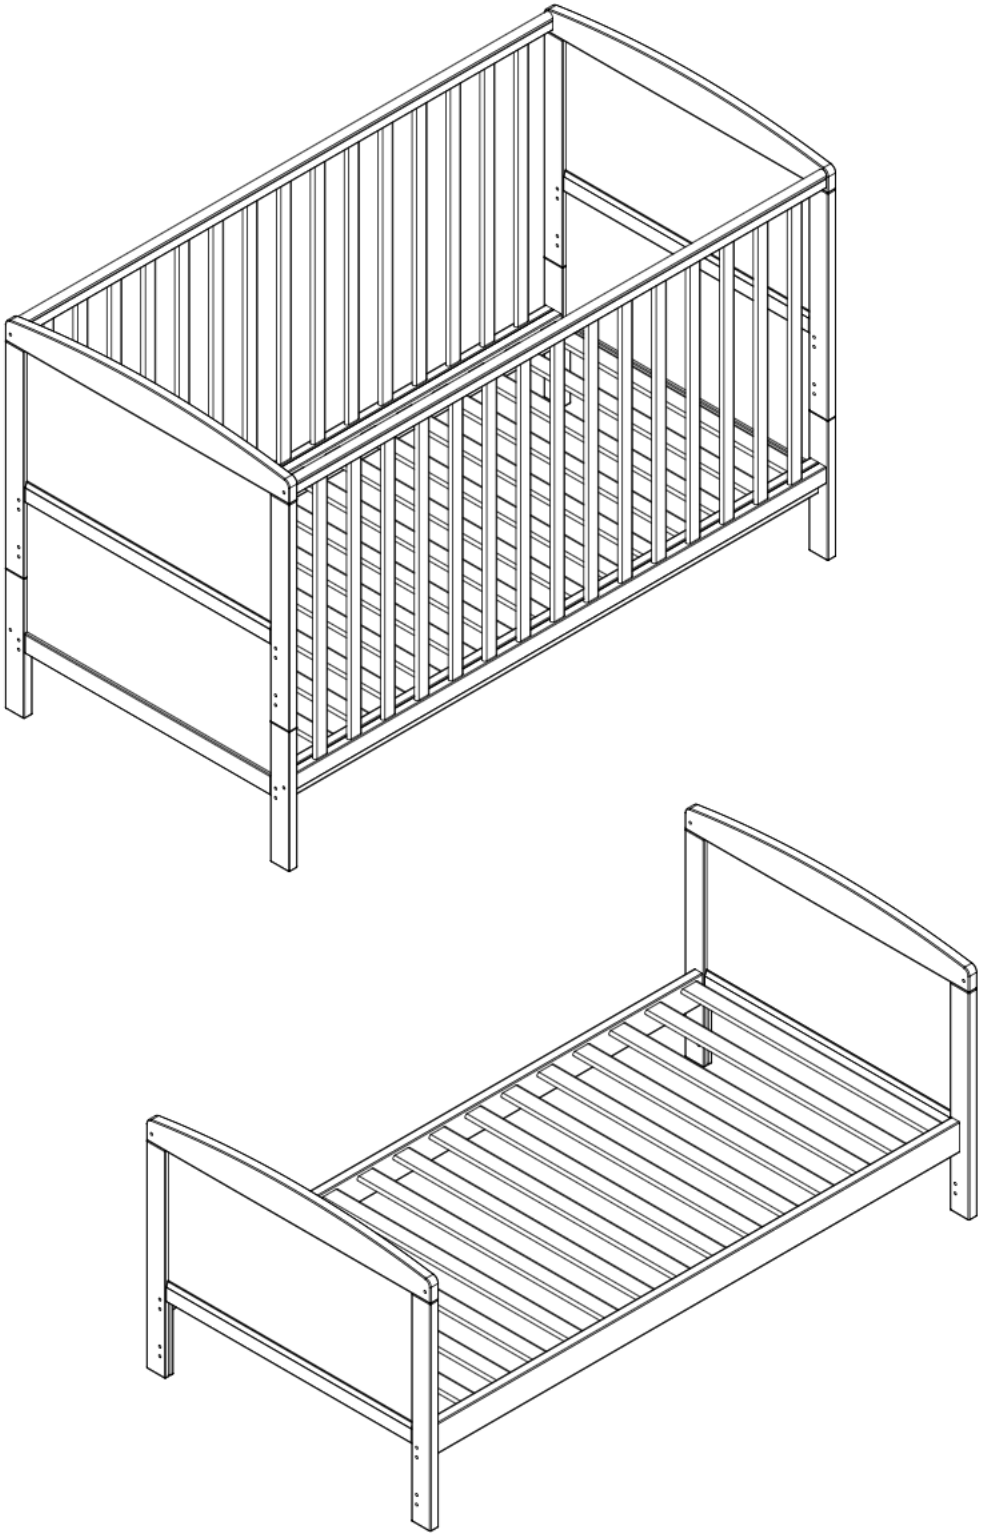

bebe & Beyond

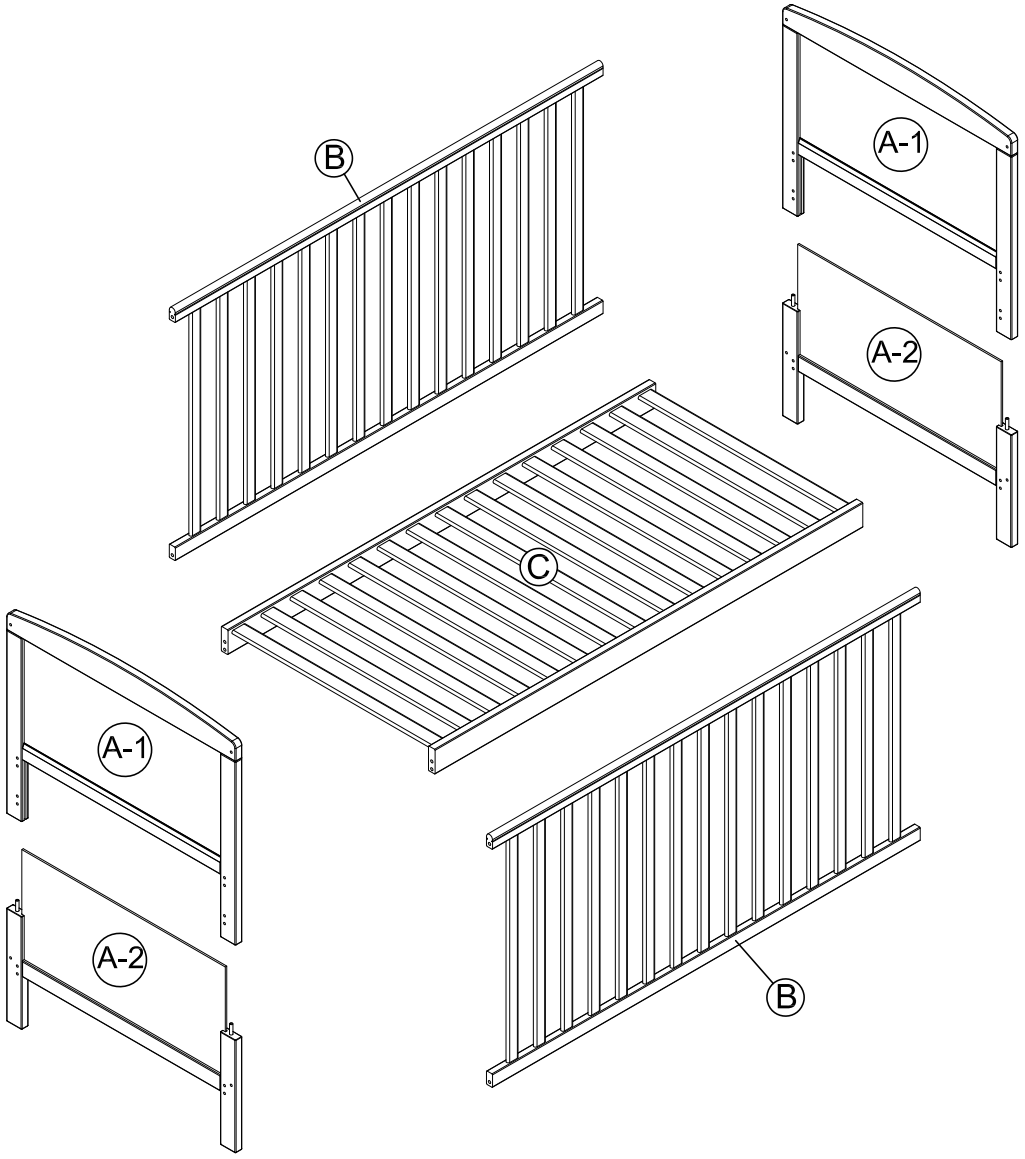

bebeandbeyond.co.uk

Thank you for choosing Bebe and Beyond. This
cot bed conforms to BS EN 716 :2017 and BS 8509 :2008 + A1:2011.
To ensure that your cot bed is used in accordance with these instructions, please read them fully.
Your child's safety may be affected if you do not follow these instructions.
Assembly should be carried out by a competent adult only.

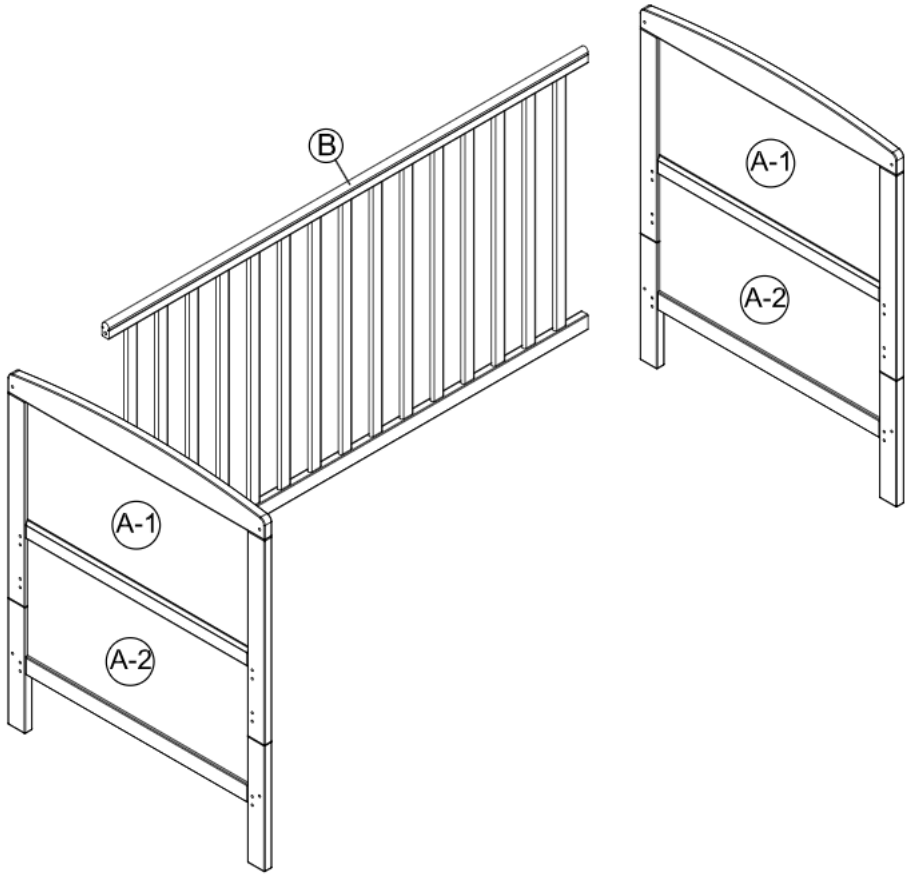

WARNING Do not use more than one mattress in the cot bed.
WARNING Do not use the cot/child's bed near heat sources, windows and other furniture.
WARNING Be aware of the risk of open fire and other sources of heat, such as electric bar fires, gas fires, etc. in the near vicinity of the cot bed.
WARNING Do not use the cot/child's bed if any part is broken, torn or missing. Use only spare parts approved by the manufacturer.
WARNING Do not leave anything in the cot bed or place the cot bed close to another product, which could provide a foothold or present a danger of suffocation or strangulation, e.g. strings, blind/curtain cords etc.
• Please be aware that the lowest base position is the safest and the base should always be used in that position as soon as the baby is old enough to sit unaided.
• The thickness of the mattress chosen should be such that the internal height (surface of the mattress to the upper edge of the cot frame) is at least 500mm when the base is set in the lowest position and a minimum of 200mm when the cot base is set in the highest position.
• We recommend you use mattress Size 140 x 70 cm for this cot bed.
The mattress should be no more then 30mm shorter or narrower than the internal length or width of the cot bed.
• To prevent injury from falls, as soon as the child is able to climb out of the cot then it should be changed into the bed mode for use up until 4 years of age.
• The cot bed is designed to be dismantled for storage or transportation.
• Children are likely to play, bounce, jump and climb on beds, therefore the child's bed should not be placed to other furniture or windows,
and should be placed either tight to the wall or have a gap of 300mm between the wall and the side of the bed.
• All assembly fittings should be tightened properly and care should be taken to ensure that no screws are loose, as a child could trap parts of the body, or clothing (e.g. ribbons, drawstrings, necklaces) this could lead to strangulation.
• During assembly children should be kept away from the product due to possible risk of injury.
• Wood is a natural material, the colour will darken with age.

ROUTINE CARE & MAINTENANCE

Regularly check that all fittings and components are fully tightened and in working order.

- For cleaning use only a mild detergent and warm water.
- DO NOT USE BLEACH.
- DO NOT USE any abrasive substances.
- Take care when handling or moving furniture, careless handling can damage wooden furniture.

Due to constant updating and improvements, some components may occasionally differ slightly from the images shown in these instructions. We reserve the rights to change the specifications of any products without prior notice. If you need any assistance please contact your Bebe & Beyond retailer from whom you purchased your product, who will take appropriate action.
