Thank You

Dear Customer

Thank you for purchasing your new piece of furniture from Dunelm. We put a lot of effort in the design and construction of our products to ensure they set the standard for quality, durability and ease of assembly. If for any reason you feel we haven't lived up to the high standards we set ourselves, please don't hesitate in contacting us on 03451 656565 where our team will be very keen to understand what has gone wrong and, more importantly, put it right.

The next step...

There is no need to feel daunted by the number of parts and fittings in front of you, we have compiled this straight forward, step-by-step guide to make sure that assembling your furniture is as easy as 1, 2, 3.

Before you begin, we advise that you check that you have everything you need to get started.

Top tip

Find a space to spread everything out across the floor before you begin assembling the item. Lay each panel down on a clean and level area, ideally in the room of intended use, ensuring there is enough room to manoeuvre around the item. It is recommended that two people assemble this product together. The full list of furniture parts, fixtures and fittings, as well as the tools you will need for assembly can be found on in this manual.

Top tip

Identify all the fittings, make sure that you have them all prepared and familiarise yourself with each component to make things easier when you are putting it all together.

Safety and care advice

IMPORTANT - The first step you need to take is to ensure your safety! Please take the time to read and understand these instructions before assembling your furniture.

Please keep these instructions for future reference.

Keep children and animals away from the assembly area. This furniture contains small parts that could cause choking if swallowed.

Keep all plastic wrapping materials away from babies and children to avoid danger of suffocation.

Ensure that all packaging is disposed of carefully and responsibly.

From time to time check that there are no loose fittings on the unit, re-tighten when necessary.

Two people may be required for the assembly of this product.

Once items are part or fully assembled they are not returnable unless faulty.

This item is not for outdoor use – unless stated otherwise.

Some items will be supplied with a wall fixing strap which we recommend is used to secure the item

Furniture can be dangerous if incorrectly assembled.

Assembly should be carried out by a competent person. No liability will be accepted for damage or injury caused by incorrectly assembled furniture.

Care Advice

Regular care advice

Vacuum clean your upholstery at least once a week, dust removal may be improved by pre-brushing with a soft cloth.

For velvet items use a soft brush lightly dress the fabric. Lightly wipe with a slightly dampened cloth to clean.

For velvet items avoid scratching the fabric as the pile may not recover and may permanently mark it.

Do not use silicone based furniture polish. Polishes can break down or stain the fabric.

General care advice

This product should only be used on level ground.

Please periodically check all fittings and re-tighten as necessary.

Do not jump or stand on your bed
Keep away from strong heat sources.

Do not use this item if components are missing or broken.

When placing furniture on a wooden or laminate floor, please ensure that plastic or felt protectors are securely fitted and in place.

Keep upholstery out of direct sunlight and excessive heat to avoid discolouring and damage.

Ensure middle support legs are set 5-10mm from the floor surface without the mattress in place.

When in use the legs will create the support required.

Do not drag your assembled bed. Always remove the mattress and lift the bed with 2x people. After moving always check that the centre support legs are securely fixed and in a vertical position.

For accidental spills or stains

Never allow any kind of liquid to remain on your furniture. Absorption can cause finishes to de-laminate or stain.

Don't rub or scrub with a cloth as this could damage the fabric and remove the colour.

Don't use washing up liquid, detergents or bleach to remove stains.

Don't soak or allow fabric to become wet.

Do blot or soak up spills immediately using a dry soft colourfast cloth.

Do use specialist upholstery cleaner if needed, always follow the manufacturer's instructions and always test on a hidden area to check colour fastness. Allow the test patch to completely dry first. If the fabric colour is affected, do not use this cleaner on the rest of your product and consult a specialist.

Finally, we hope you enjoy your furniture for many years to come and thanks again for your purchase.
