

Thank you for purchasing this light fitting. Please read the instructions carefully before use to ensure safe and satisfactory operation of this product. Please keep these instructions for future reference.

Warnings!

 This fitting is a Class II, double insulated product. It does not require an Earth, and Live or Neutral must not be connected to Earth.

This product is only suitable for connection to a 240V~50Hz supply in accordance with current IEE wiring regulations. It should be installed in accordance with local building regulations.

This product is IP44 rated and is suitable for outdoor use.

Before installing your light fitting always switch off the mains supply and remove the appropriate fuse or switch off the appropriate circuit breaker before commencing installation.

If replacing an existing fitting, make a careful note of the connections.

This product is suitable for installation on surfaces with normal flammability e.g. wood, masonry. It is not suitable for use on highly flammable surfaces or in flammable atmospheres.

Never fit bulbs of a higher wattage than those specified on the label, as these may cause overheating and damage the fitting.

If you are in any doubt about your competence please consult a qualified electrician.

If any modification is made it will invalidate the warranty and may render the product unsafe.

This product contains delicate parts – be careful during handling and maintenance to avoid breakage.

Keep children and animals away from the assembly area. This fitting contains small parts that could cause choking if swallowed. Keep all plastic wrapping materials away from children to avoid danger of suffocation.

Ensure that all packaging is disposed of carefully and responsibly.

Fixing Instructions

Make sure you have the following items which are required to install this light fitting:

Small electrical screwdriver, cross head screwdriver & insulation tape.

Step 1

Decide on the position of the light fitting, or remove existing light fitting. Note the position of the electrical connections. Ensure there is a solid mounting surface, preferably a brick wall, to support the weight of the light fitting.

Step 2

Remove the mounting bracket **(1)** from the wall cover by loosening the two side screws **(2)**.

Step 3

Using the mounting bracket as a template, mark the position of the mounting holes. Taking care to avoid damaging concealed wires and pipes, drill holes and fit supplied wall plugs **(3)** (suitable for masonry only - for other surfaces use appropriate fixings). Fix the mounting bracket to the wall using the supplied screws **(4)**.

Step 4

Having identified the household wiring from your existing light fitting, connect to the connection block **(5)** inside the product in the following way:

Check that...

You have correctly identified the house wires.

The connections are tight.

No loose strands have been left out of the connection block. Make sure the lid of the connection box is securely fixed to maintain moisture protection.

Step 5

Refit the product to the mounting bracket. This product has "L" shaped fixing holes to allow easy fixing to the mounting bracket. Locate the "L" slots **(6)** around the side screws **(2)** on mounting bracket **(1)**. Slide the wall cover to attach the product to the bracket. Tighten the screws to secure. Take care not to trap any wiring. Make sure the lampholder is correctly orientated and facing downwards.

Step 6

Fit the bulb **(7)**. Max 10W LED E27 GLS. Only use glass bulbs to ensure optimum moisture resistance. **NOTE: Never fit bulbs of a higher wattage than those specified on the label (as these may cause overheating and damage the fitting).** Ensure the bulb seal **(8)** is securely in place on the lampholder cup. This is essential to ensure the product remains waterproof.

Step 7

Turn on the power and test.

Care and cleaning

Finish - We recommend cleaning with a soft dry cloth. Do not use abrasive materials as these will damage the finish.

Glass parts - Just use a damp cloth. Do not use abrasive materials as these will damage the finish. Take care when handling glass parts to avoid damage or injury.

Our packaging is recyclable, please recycle where facilities exist.

 Waste electrical products should not be disposed of with household waste. Please recycle where facilities exist. Check with your Local Authority or retailer for recycling advice.

— We're happy to recycle your old light for free. Simply bring it to store within 28 days of purchase of your new light, with your receipt, and we'll make sure your old light stays out of landfill.
