# RUG CARE GUIDE

To keep your rug looking its best for as long as possible we have created some top tips on how to care for your new indoor/outdoor rug

## Indoor/Outdoor - good to know

Our indoor/outdoor rugs are crafted using all-weather yarns - rain and water doesn't bother them! Resistant to fading, mould and mildew, our rugs are highly durable yet soft underfoot, offering you excellent performance outdoors or in.

## Un-rolling your rug

To help your rug lay flat, unroll your rug, flip over, re-roll and leave in a warm room for 24 hours. This will help reduce any wrinkles from packing.

## Day to day care

Our indoor/outdoor rugs are easy to care for and require little maintenance. Simply shake or vacuum to remove any dirt and crumbs. Like most rugs it's best to remove the beater brush before vacuuming.

## Loose ends

Snip any loose fibres carefully with scissors - never pull.

## Safety first

Using your rug indoors? Don't forget to add an anti-slip underneath your rug to prevent the rug from slipping.

## Spills

When spills occur, use mild soap and rinse with a hose on both sides. Hang the rug or lay it out in the sun to dry.

## Long term care

When the weather turns, why not find a new home for your outdoor rug indoors? From kitchens, to dining rooms, hallways and kids playrooms, this rug is the perfect all-rounder. Alternatively, you can roll, cover and store your rug and wait for sunnier days.

### AFTER OPENING

Re-roll your rug pile out for 24 hours to reduce curling. Regularly turn to ensure even wear.

### OUTDOOR USE

UV resistant to help prevent fading. Use on a dry, flat surface to extend its life.

### EASY CLEAN

Use mild detergent and soft brush. Rinse well with water and dry before use.
