# Washable rugs

Let's face it, spills happen!  
Washable rugs are not only **easy to clean** but are **stylish** too.

To help keep your rug *looking great*, follow our top care tips:

## Did you know?

From muddy paws to accidental spills, a washable rug can shrug off whatever busy homes throw at it. An ideal addition for injecting an easy-clean, added layer of comfort to on-the-go homes.

## Rug & Roll

Our rugs are rolled to ensure they arrive safe and sound from our hands to your home. To flatten your new rug, reverse roll and leave in a warm room for 24 hours. This will help reduce any wrinkles from packing.

## Snip Snip

If you find the odd loose thread, simply snip carefully with scissors – never pull.

## Safety

At Flair Rugs we always recommend an anti-slip is used to prevent your rug from slipping and to protect your floors.

## Rug Care

Dust and dirt are easy to clean from a washable rug, simply shake it out! Then simply vacuum with the nozzle attachment.

## Spills

Act fast and blot liquid spills immediately. Spot clean as needed with a dry white cloth only. Spot clean as needed with a dampened white cloth only; press firmly around the spill to absorb as much as possible. Stubborn spill? Pop in the washing machine on a gentle cycle at 30 degrees.

## Long term care

To keep your rug looking good as new, rotate every 3 months to ensure even fading and wear.

Rugs that bring everything, and everyone, together
