Assembly Process

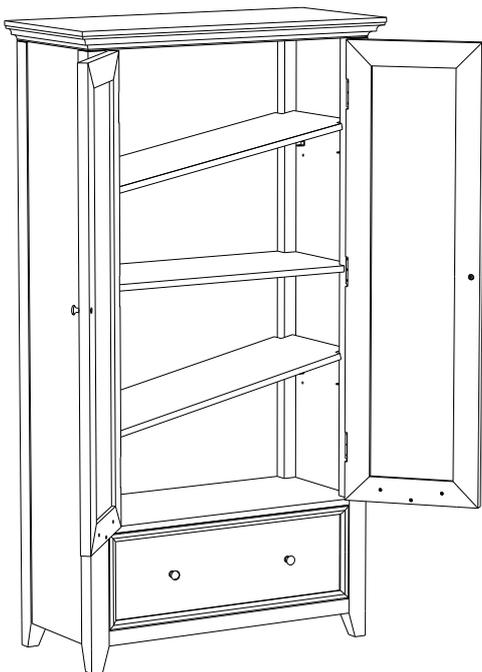

Step 1:

Step 2:

Step 3:

Thank You

Dear Customer

Thank you for purchasing your new piece of furniture from Dunelm. We put a lot of effort in the design and construction of our products to ensure they set the standard for quality, durability and ease of assembly.

If for any reason you feel we haven't lived up to the high standards we set ourselves, please don't hesitate in contacting us on **03451 656565** where our team will be very keen to understand what has gone wrong and, more importantly, put it right.

The next step...

There is no need to feel daunted by the number of parts and fittings in front of you, we have compiled this straight forward, step-by-step guide to make sure that assembling your furniture is as easy as 1, 2, 3. Before you begin, we advise that you check that you have everything you need to get started.

Top tip

Find a space to spread everything out across the floor before you begin assembling the item. Lay each panel down on a clean and level area, ideally in the room of intended use, ensuring there is enough room to manoeuvre around the item. It is recommended that two people assemble this product together. The full list of furniture parts, fixtures and fittings, as well as the tools you will need for assembly can be found on in this manual.

Top tip

Identify all the fittings, make sure that you have them all prepared and familiarise yourself with each component to make things easier when you are putting it all together.

Safety and care advice

IMPORTANT - The first step you need to take is to ensure your safety! Please take the time to read and understand these instructions before assembling your furniture.

Please keep these instructions for future reference.

Keep children and animals away from the assembly area. This furniture contains small parts that could cause choking if swallowed.

Keep all plastic wrapping materials away from babies and children to avoid danger of suffocation.

Ensure that all packaging is disposed of carefully and responsibly.

From time to time check that there are no loose fittings on the unit, re-tighten when necessary. Two people may be required for the assembly of this product.

Once items are part or fully assembled they are not returnable unless faulty. This item is not for outdoor use - unless stated otherwise.

Some items will be supplied with a wall fixing strap which we recommend is used to secure the item to the wall to prevent a child from accidentally pulling furniture over. Furniture can be dangerous if incorrectly installed. Assembly should be carried out by a competent person. No liability will be accepted for damage or injury caused by incorrectly installed or assembled furniture.

General furniture care.

- Uneven floors could give the impression that doors are out of alignment or that the furniture is wobbly. Be aware of this and compensate, if necessary, by adjusting the hinges or packing a corner to level the item. Please refer to the assembly instructions and adjust accordingly.
- If your furniture becomes stained, scratched, chipped or suffers other damage, we recommend professional help is sought to restore it. Please contact our customer services line for recommended agents.
- **DO** move items such as ornaments or coasters around periodically to allow the colour to mellow evenly.
- **DO** use mats and coasters to protect the surface from heat, liquids, or items that may cause scratches.
- **DO** ensure plastic or felt feet protectors are securely fitted into place on the feet and legs to avoid scratches.
- **DO** check fittings and fixings from time-to-time and tighten when necessary. Stop using the product if still unstable after all screws and bolts are tightened.
- **DO NOT** drag your furniture when moving it as this can damage joints. Always lift furniture into place.

Specific material care.

Timber Care

- Timber is a natural material and each piece is individual.
- Colour may mellow over time and new items can vary in shade from items that you have purchased previously.
- **DO** only clean using a damp cloth and mild detergent. Aim to dust weekly with a soft, lint-free cloth or duster to prevent any build up of dirt.
- **DO** ensure the polish you are using is correct for your product and finish.
- **DO** avoid getting furniture wet when mopping floors. Always move out of the way when possible.
- **DO** patch test polishes or cleaning products on a small discreet area before applying across the whole unit.
- **DO** remove any spills immediately to avoid staining.
- **DO NOT** place directly in front of heat sources such as radiators or fires as timber can be affected by temperature and humidity which may cause cracking and warping.
- **DO NOT** place timber product in direct sunlight, as this will cause the colour to change quickly.
- **DO NOT** use bleach or abrasive cleaners.
- **DO NOT** use abrasive polish or silicon-based polishes as these can affect the finish over time.

Specific material care.

Glass & Mirror Care

- Mirrors are a potential fire hazard. Keep out of direct sunlight.
- Handle with care.
- Always supervise young children around glass products.
- If the glass is chipped or broken, stop using the product.
- It is not recommended that glass or mirrored items to be positioned over heat sources such as radiators.
- **DO** clean your item, using a soft cloth slightly dampened with water and wipe clean. Then buff with a dry clean cloth. Use washing up liquid if necessary.
- **DO** only use fixings provided with the product.
- **DO** stop using the product if the glass is chipped or broken.
- **DO NOT** place very hot or very cold items directly on glass surfaces. Adequate table mats can be used to prevent such items coming into direct contact with the furniture.
- **DO NOT** sit or stand on glass surfaces.
- **DO NOT** use glass as a chopping board.
- **DO NOT** strike the glass with hard or pointed items or use the glass as a chopping surface.
- **DO NOT** use abrasives cleaning agents, as these may scratch the glass.
- **DO NOT** install this product in a damp environment such as a bathroom or outside, unless the product specifies otherwise, as this may cause the product to warp and become damaged.
