WARNING: Children are likely to play, bounce, jump and climb on beds, therefore the child's bed should not be placed too close to other furniture or windows, blind cords, curtain pulls or other strings or cords, and should be placed either tight to any wall or have a gap of 300mm between the wall and the side of the bed.

WARNING: Do not place this child's bed near heat sources, windows and other furniture.

WARNING: Mattress Max. thickness: 10cm

WARNING: Do not use more than one mattress in the cot.

The lowest position of the mattress base is the safest, and should be used as soon as the baby is old enough to sit up. To prevent injury from falls, when the child is able to climb out of the cot, the cot shall no longer be used for that child.

Thickness of the mattress chosen must not reduce the internal depth (from mattress surface to top of the side) to less than 500mm with the base in its lower position or 200mm with the base in its higher position. The leg of the cot has a mark indicating this height.
